

## Guide to Ineligible Items

You don't want to get red carded during assessment. Each round we have to decline many applications because clubs have applied for ineligible items, or we are unable to see a clear alignment to the program goals

Our guide to ineligible items is best used as a reference to ensure your great ideas can be funded and the items requested can help increase participation levels at your club.

There are over 70 sports eligible to apply and unfortunately, we can't list every racquet, ball and paddle. This list should be used as a guide.

Some ineligible items may specifically be required to run a social or modified sport program (e.g. safety equipment required for Bowling with Babies, Bowls Victoria initiative). Please outline how the items relate to the program you intend to run in your application.

### New funding categories

We can now offer clubs funding to support venue hire, deliverer fees and small environmental changes that will make your club environment more welcoming to women and girls. We have heard though the evaluation from clubs that these three areas are crucial to setting up a new initiative and/or providing a positive experience. However, these funds cannot be used retrospectively if the team, competition or program has already been established.

#### Venue hire

##### Maximum request of \$1,000.00

- ✓ a contribution to venue or ground hire to help your club get new teams, competition or programs off to a great start

*For example: VicHealth Badminton Inc requires access to a court on weekday mornings to support a new social competition. The clubs requests \$840, to cover three hours a week of court hire for 14 weeks of competition this will support the club to get the program off the ground and build participation.*

#### Deliverer fee

##### Maximum request of \$1,000.00

- ✓ a contribution to paying a deliverer to run or facilitate a new program
- ✓ this includes professional, semi-professional, or volunteer coaches, facilitators or instructors

*For example: VicHealth Basketball Inc requires a Deliverer to run the newly created Sunday morning Junior Hoops program. The cost of the deliverer is \$850 and will deliver 34, one hour sessions over a six month period. The fees will reduce the cost for new participants to the program in the first year to encourage participation.*

#### Changes to Environment

##### Maximum request of \$1,000.00

- ✓ small environmental changes or upgrades that will a more welcoming, friendly and suitable experience.

This does not include major infrastructure, but it could include:  
*Example 1: VicHealth Football club requires block out curtains to increase privacy for players in the change rooms. Giving the women's team greater confidence and security.*  
 or  
*Example 2: VicHealth Bowls Club is implementing a Bowling with Babies program; the club applied for \$200 towards play pens for babies to be in a safe location on the green whilst their mums are actively participating in the program; and \$630 towards a portable ramp to assist moving prams from walk ways to the green.*

The below are other examples of typical requests from clubs and can be used as an indication to maximise your budget and support your idea.

You can refer to the “**What can be funded in the focus areas?**” section in the [Active Club Grants 2019-20 Round 2 information sheet](#) more detail.
